

Team Leader

A Team Leader plays a vital role in first-line management by ensuring the smooth running of a team, working towards business objectives, and supporting the development of the individual team members.

They provide leadership with operational and project responsibilities by offering direction, instructions and guidance to achieve targets and will often be responsible for ensuring tasks are correctly administered in line with current legislation and organisational policy.

Key Development Areas

- ✓ **Management Skills:** Collate and interpret data to identify trends, contribute to continuous improvements, ensuring financial viability.
- ✓ **Communication & Personal Growth:** Building emotional intelligence to support effective collaboration with internal and external stakeholders.
- ✓ **Problem-solving and Decision-making:** Identifying, assessing and monitoring potential risks, and supporting risk mitigation within the organisation.
- ✓ **Leadership Skills:** Setting, monitoring and managing performance objectives of staff providing support and contributing to their training and development needs.
- ✓ **Project Management:** The implementation of initiatives to support organisational environmental and sustainability goals, improve performance and reduce costs.
